**Technician position in ecology**  
50% / March/April 2022

The research group Ecology at the Department of Environmental Sciences invites applications for a technician position.

We are looking for a long-term technician for our new group. For our research we combine observational and experimental field data with modelling to answer questions related to, e.g. alpine and arctic plant ecology, biogeography, environmental change, biodiversity and species distributions.

**Your position**  
You will professionally manage the research group’s data as well as field and IT equipment, and be responsible for the modelling server and the acquisition of new instruments. You will support members of the group in generating efficient code and in conducting field campaigns, and will participate and assist in their planning.

**Your profile**  
We are looking for a highly motivated and reliable candidate with a self-organized and solution-oriented work attitude. Applicants should be experienced in coding (preferably in R), be able and willing to join field work campaigns under harsh climatic conditions, and hold a valid driver’s license. Knowledge of geographical information systems and plant species identification are assets. Good spoken English is required to interact with all members of the research group and knowledge of German is desirable.

**We offer you**  
A diverse and interesting part-time technician position in a dynamic research group in the international and interdisciplinary Department of Environmental Sciences at the University of Basel in Switzerland. You will join a supportive, collaborative and cooperative working environment in a new research group. Salary and social benefits are provided according to the rules of the University of Basel.

**Application / Contact**  
Please upload your application via our online platform.

It should include: a motivation letter (max. 1 page), a CV, copies of relevant degrees, and the names and contact details of 3 references. We especially encourage applications from women and from persons underrepresented in academic institutions.

Applications will be reviewed from 16th January 2022 on, but the advert will remain open until the position is filled. For further questions please contact Prof. Dr. Sabine Rumpf (sabine.rumpf@unibas.ch).
